

# Calbah

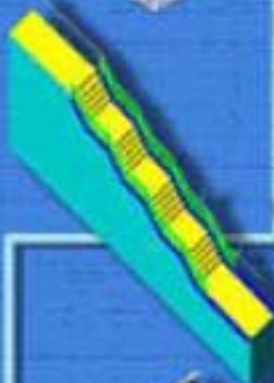

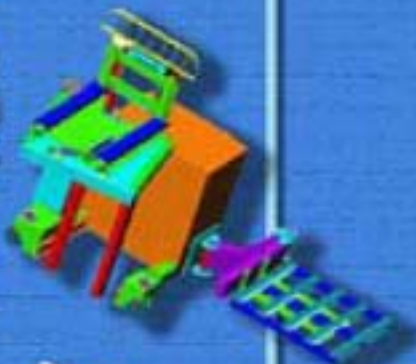

INDUSTRIAL DESIGN & FABRICATION

## DESIGN & DRAFTING

*With a qualified design and engineering team Calbah is ready to take your project through from concept to production.*

*Calbah uses up to date CAD software to 3D model all components to be manufactured giving the customer complete confidence in the look and functionality of the finished product. With experience in projects including sculptures, bridges, boats, mezzanine floors, handrails and conveyers and a good knowledge of 4 wheel drive suspension, hydraulic, pneumatic and electrical systems our staff is ready to help you with your next project.*

**CUSTOM DESIGN ENGINEERING & ALL METALS PRECISION FABRICATION**
